Insurance strategies & products

Contact us for a no obligation discussion

Australian Money Market streamlines the administration of investing in term deposits by providing a central platform and broking service, saving you time and money.

#### Interest rates from more than 20 Approved Deposit Institutions in one location

Australian Money Market has partnered with over 20 different Australian banks, building societies and credit unions, showing all the rates and terms on offer across the range of providers in one place. Online rates are updated daily including any rate specials.

#### Government Guarantee Scheme

All institutions on the platform are covered by the Government Guarantee Scheme up to \$250,000 per institution.

#### Secure storage and funds transfer

Strict security procedures are followed to ensure personal information is securely stored.

When a term deposit option has been selected, funds are transferred seamlessly between institutions via a centralised cash management account registered in the investor's name. No monies are held on trust, funds and accounts always stay in your name as the investor.

#### Adviser assistance

As your adviser, we can assist in brokering maturities and reinvestments. We'll simply give you a call a few days prior to your term deposit maturing to discuss the current rates and terms on offer. From this, we'll make it happen. In addition, we'll get copies of interest statements and can save these to your tax file ready for year end tax preparation.

Take the first step today by talking to one of our advisers. They can tell you more about this service and, when you're ready, can set up an account for you with no fuss.
